## NC DIVISION OF MH/DD/SAS 2010/2011

## WORK FIRST SUBSTANCE ABUSE INITIATIVE INDIVIDUAL MONITORING INSTRUCTIONS

All LME's participate in this monitoring event.

**Question #1**: The monitor will determine if there are active Work First participants where the individual is engaged in substance abuse treatment. If there are no active participants, rate the question "0/No" and subsequent questions "9/NA".

**Question #2:** The monitor will review documentation to determine if a release of information was completed for the county DSS and LME to communicate regarding the individual receiving an assessment and the disposition. (County in this case is the individual's referring county).

**Question 3**: The monitor will review the release of information to ascertain that the release is valid. A valid release of information (meeting the requirements of 42 C.F.R. Part II) will include the following:

- a) Name of individual
- b) Name of program making disclosure (i.e. LME)
- c) Name of organization to which disclosure is to be made (i.e. County DSS)
- d) Nature of the information (i.e. outcome of assessment)
- e) Purpose of the disclosure (i.e. Work First eligibility)
- f) Revocation Statement
- g) Expiration Date (time limit of no more than one (1) year with reference to the specific information to be released.)
- h) Signature of service recipient
- i) Date (i.e. date signed by service recipient)

All elements (a-i) must be present in order to rate this question "1/Yes". If any item is not present, rate the question "0/No".

Question #4: The monitor will review documentation to determine if a Substance Use Disorders Diagnostic Schedule-IV (SUDDS-IV) or approved alternate assessment was completed on the individual. If an "approved alternative" was used, there should be documentation from Starleen granting approval. If an assessment other than the SUDDS-IV or an approved alternate was completed, the rating code is "0/No". NOTE: it is acceptable to complete an assessment in addition to the SUDDS-IV, but not necessary. If the individual was engaged in substance abuse treatment prior to identification as a Work First participant, a SUDDS-IV is not required and the rating code should be NA.

**Question #5:** The monitor will review documentation supporting evidence that the QPSA monitored the individual's participation in treatment. Types of evidence may include documentation with dates of contact with DSS, provider of Substance Abuse services, and/or individual.

**Question #6:** The monitor will review documentation to determine if a report on the individual's progress in substance abuse treatment, either verbally (which could be found in a services note) or written (i.e. a letter or a form), was provided to the county department of social services.
